For Raifing Two Millions of Money,
FOR THE
Service of the Year 1714.

(Payable with Interest,) by way of LOTTERY, upon the Credit of the FUNDS already settled for the Payment of the other LOTTERYS; whereby all other Lottery-Tickets and Orders will be brought to Par, and paid off in less than 20 Years; and upwards of Ten Millions of Money pay'd to the Nation. By SAMUEL JACKSON.

TIS Propos'd to Issue out 800,000 Tickets at 12*l*. 10*s*. each, or such other Number as the Parliament shall think convenient or sufficient to raise the Sum required.

That every Adventurer pay down 2*l*. 10*s*. in Specie for each Ticket they Subscribe for; And the remaining Ten Pounds, on or before the Day of . . . But that the Adventurers may at their choice pay the said Ten Pounds, either in Money or in Blank or Benefit Lottery Tickets, Orders, &c. bearing 6 per Cent. Interest, which shall be taken as Specie, without any discount.

That every Million so paid in, in Tickets, Orders, &c. brings in, in Specie 250,000*l*. and consequently 8,000,000. in Orders, &c. raises 2,000,000*l*. in Specie.

That this Undertaking may be capable of supplying the Government immediately with what Money they shall Require; 'Tis propos'd to be divided into several Lottery's, And that there be 100,000 Tickets in each Lottery, And that for expedition, it be Drawn after the manner the Dutch draw theirs, and the Drawing of one, to determine all the others.

That there be in each Lottery the following Benefits, viz.

	Pounds.		Pounds.
1 of	10,000	—	10,000
1 of	5,000	—	5,000
1 of	3,000	—	3,000
2 of	1,000	each	2,000
10 of	500	each	5,000
40 of	200	each	8,000
100 of	100	each	10,000
400 of	50	each	20,000
5000 of	20	each	100,000

First and last Drawn. } — 1,500 each — 3,000

Benefits in each Lottery are 5557. } — Value of the Benefits. } — 165,000*l*.

And if Eight Lottery's, there will be the following Benefits, viz.

	Pounds.		Pounds.
8 of	10,000	each	80,000
8 of	5,000	each	40,000
8 of	3,000	each	24,000
16 of	1,000	each	16,000
80 of	500	each	40,000
320 of	200	each	64,000
800 of	100	each	80,000
3200 of	50	each	160,000
40000 of	20	each	800,000

Eight as first Drawn, and Eight as last Drawn. } — 1,500 each — 4,000

Benefits in all are 44,456. } — Value of the Benefits. } — 1,28,000*l*.

Which tho' is about 16 Blanks to a Benefit, yet as every Ticket, as well Prize as Blank, is to be Intituled to 12*l*. 10*s*. for the Original Cost, it is better than if there were but 5 Blanks to a Prize; because here no loss can happen at the worst; and for that reason this Lottery will fill presently.

For when a Person for 2*l*. 10*s*. in Money, and a Ten Pound Ticket or Order, tho' but worth about 7 or 8*l*. has a Chance to get 10. or 12*l*. 10*s*. Or for 20*l*. in Specie; and 8 Ten Pound Orders, which may be bought for about 64*l*. they have a chance to get 8,000*l*. besides 100*l*. for their 20*l*. and Orders, which at Prime cost stands them in not above 84*l*. Who would not Adventure?

In the late Lottery's, a Person tho' Intituled to a 20 *l.* Prize, if in the remote courses of Payment, and necessitated to dispose thereof, could not Sell it but for about 14 *l.* the Original Cost of which might be at least 10 *l.* so that the Clear Profit could not be above 4 *l.* The smallest Benefit in this Lottery is 20 *l.* besides 12 *l.* 10 *s.* for the Original Cost, in all 32 *l.* 10 *s.* And even the Blanks in this Lottery are as good as 20 *l.* Prize in the late Lottery's, because for every 2 *l.* 10 *s.* and a Blank Ticket or Order of the other Lottery's, tho' not worth above 7 or 8 *l.* as aforesaid, these Adventurers will have Tickets in this of 12 *l.* 10 *s.* each, and if they should come up Blanks, yet they may immediately receive 12 *l.* 10 *s.* for them without any discount, when in the late Lottery's neither Blanks nor Benefits will Sell under 20 or 30 per Cent. discount.

So that every Blank in this will be as valluable as a 20 *l.* Prize in the late Lottery's.

The Method of doing this (however improbable it may seem to be), and how the said Blank and Benefit Lottery Tickets, &c. in this and the other Lotterys shall be made valluable and paid off as Propos'd, without any new Fund, the said *Samuel Jackson* will Lay before and Make Out to this Honourable House, when ever they shall please to require it of him, and (in case it be approv'd of,) will leave the Reward, to their Great and Unerring Wisdom.

A

PROPOSAL

Timbly offered to the Honourable, the

House of Commons.

For raising *Ten Millions* of Money immediately, by way of *Lottery*, without any *New Fund*, and yet bring all Orders, &c. of the Preceding *Lottery's*, and the Blanks and Benefits of this to Par: Pay off the whole in less than 20 Years, and save the Nation upwards of *Ten Millions* of Money.

By *SAMUEL JACKSON*.
